

Technical Data Specification Sheet

Flash Spun HDPE Packed 0.5g Silica Gel Desiccant

Product	Flash Spun HDPE Packed 0.5g Silica Gel Desiccant		
Product Code	1SG-0.5A-ND0S1EU		
Raw Material	Silica Gel		
Packaging Material	Flash Spun HDPE		
Technical Standard	Water Content (180°C)		≤3.0%
	Moisture Absorption Capacity 25±2°C RH=20±2%		≥9.5%
		RH=50±2%	≥22.0%
		RH=90±2%	≥34.0
Sachet Dimension	Weight:	0.50~0.65g	
	Width:	16±1mm	
	Length:	34±1mm	
Sealing Method	Ultrasonic Sealing		
Lasering	Wisemini		
STD Packaging	—15,000pcs/roll/PE/foil bag/ctn		
	Each roll with one pcs of 8% HIC		
	Roll size	295×2×77.5mm	
	Baffle size	Φ355×5m	
	Roll cap size	match 76mm hole	
	Pearl pad size	φ140×6mm	
	PE bag size	650×650mm、3s	
	Foil bag size	650×800mm	
	Carton size	370×370×340mm	
	—Carton label contains the following:		
	PO Number		
	Product Name		
	Specification		
	Quantity		
	Batch Number		

Technical Data Specification Sheet

Flash Spun HDPE Packed 0.5g Silica Gel Desiccant

Storage Shelf life: 3 years
Desiccant must always be kept in airtight containers to avoid moisture.

Notes The data given here is based on current knowledge and experience. This document is designed to describe the products in terms of their safety requirements. The above details do not imply any guarantee concerning composition, properties or performance. User is liable for his own operation.
